Length system 1900 | 950 mm
max. 1 layer 950 mm per package
Thickness 15 mm
Useful layer approx. 5 mm
Package content 2,17 m²

LUXURY CLASS

Our company has been working with the valuable raw material wood for more than 100 years.

As a result of our intensive involvement and continuous learning processes during this time, we have developed highly innovative manufacturing techniques that distinguish the company from others by its outstanding quality, which is renowned far beyond our borders.

Thus, Bergland-Parkett was the first manufacturer to succeed in producing a 3-layered solid parquet flooring from one and the same hardwood, and in this way combining all the advantages of solid and pre-finished parquet in one product – solid hardwood and pre-finished parquet at the same time.

Our ongoing investment in the best, highly motivated staff and our modern production techniques are the guarantee of our philosophy to aim for the highest quality.

In this way, Bergland-Parkett creates parquet floors that hold their value timelessly and can be used for decades. We do not only talk about sustainability, we rather live it.

Thomas Amashauffer

Managing Director

Your authorized Bergland-Parkett retailer

Quality has its price.

Bergland-Parkett – Your decision for long-lasting values.

Therefore, our exquisite floors are only available at authorized Bergland-Parkett retailers.
